Manual diamond dressers

SUCO 2 Multi-point diamond dressers

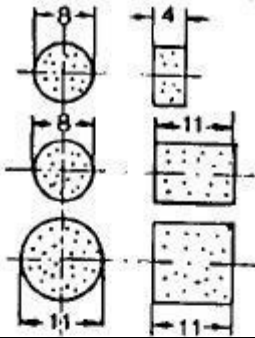

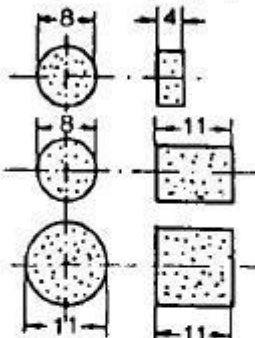

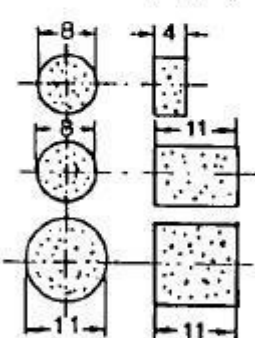

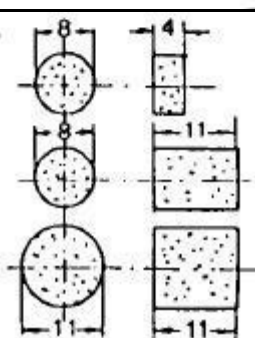

According to customer's specification

SUCO 2 Multi-point diamond dressers are single- or multi-layer tools. The diamonds are set according to a given schema to ensure optimum contact with the grinding wheel. The tough bond results in optimum tool-life and minimum wastage of diamonds

Type	Diamonds	Carat	Insert Diameter	Bonds
2A	3 x 3	1.0	10	Corundum or Silicon Carbide
2B	2 x 3	1.0	10	Corundum or Silicon Carbide
2C	1 x 3	1.0	12	Corundum or Silicon Carbide
2D	1 x 5	2.5	16	Corundum or Silicon Carbide
2E	1 x 10	6.0	20	Corundum or Silicon Carbide

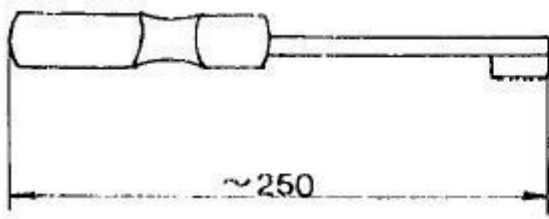

All shanks available according to customer's specification.

Multi-point dressing inserts

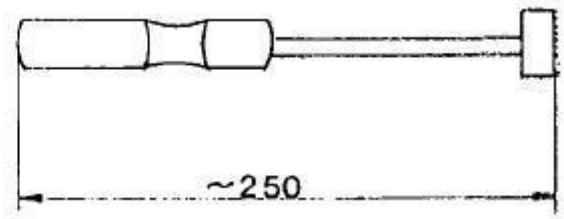

Type	Inserts	Grains / Carat Per Carat	Grain size	Bonds
R		20/1.0 20/2.5 20/5.0	36 - 46	Corundum or Silicon Carbide
S		60/1.0 60/2.5 60/5.0	46 - 60	Corundum or Silicon Carbide
T		80/1.0 80/2.5 80/5.0	60 - 80	Corundum or Silicon Carbide
U		120/1.5 120/3.5 120/5.0	80 - 120	Corundum or Silicon Carbide

Shanks available according to customer's specification.

SUCO 2 Manual diamond dressers

Precision tools from BERLIN stand for:
QUALITY. — Diamond tools from BERLIN stand
for: **SUCO**. In 1962 **SUCO**, short for Schmitz and
Company, manufacturer of diamond tools, was founded in
Berlin. Due to the high standard of quality of their products **SUCO**
quickly succeeded in establishing a good reputation amongst experts.
Continuous development of their products, improvement of their quality
standards as well as the extension of their range of products have
given **SUCO** a firm position in industry. To maintain and further
improve those standards will continue to remain our
objective. — Diamond tools always were a matter of
confidence. — Rely on us and our competence.
We will be happy to pass on our experience
to you. **SUCO**: your partner in
the diamond tool trade.
